SURENDRA KODURU

CSE Student & Aspiring Software Engineer | kodurusurendra@gmail.com | github.com/kodurusurendra4-debug | leetcode.com/u/kodurusurendra/

EDUCATION

B.Tech — Computer Science and Engineering, SRM University AP
Currently pursuing 2nd year | CGPA: 9.133

TECHNICAL SKILLS

Languages: C, C++, Java
Web: HTML, CSS, JavaScript, React.js
DSA: Arrays, Linked Lists, Stacks, Queues, Trees, BST, Heaps, Graphs, Sorting, Searching
Soft Skills: Problem Solving, Quick Learner

PROJECTS

Calendar Project
- C-based calendar application that takes a year and month as input and displays dates and weekdays. Repository: github.com/kodurusurendra4-debug/calender

StudentHub
- Frontend student productivity platform featuring Dashboard, Timetable, Assignments, Subjects, Attendance, Study Goals, and Exam Planner functionality.

Fortex
- Fresher guidance application developed as a hackathon project; contributed to frontend development and presentation/PPT preparation.

Suraksha AI — SIH 2026 Internal Hackathon
- Intelligent disaster-management solution for hazard-based red-zone identification, carrying-capacity assessment, and immediate relocation needs for vulnerable habitations.

CODING & ACTIVITIES

- Coding Club, SRM University AP — Member
- LeetCode — 67+ problems solved
- SIH 2026 Internal Hackathon — Worked on Suraksha AI

CAREER OBJECTIVE

Aspiring software engineer focused on strengthening data structures and algorithms, building practical web applications, and continuously improving problem-solving skills.
